

SC LAUNDRY BREAK

Lavado En Ciclos Super Concentrado

DESCRIPTION:

This product is specially formulated to be used with Brody's Super Concentrated Product System for laundries. Our product is formulated to be dispensed directly from the container through an automated injector system into the laundry machine, thereby eliminating hand feeding from powder hoppers and possible spillage.

CAUTIONS:

Highly alkaline liquid. Contact with skin and eyes may cause severe irritation. Harmful if swallowed. Flood with water if splashed in eyes. Flush with water for 15 minutes and consult a physician immediately. If ingested, drink large amounts of milk, milk of magnesia or gelatin, or if these things are not available, drink large amounts of water. Do not induce vomiting. Obtain prompt medical attention. Consult Material Safety Data Sheet for further information on product acceptability. Triple rinse empty containers before disposal in an authorized

DIRECTIONS:

For normal soils: Use 2 ounces of product per 50 pounds of laundry to accomplish around 400 ppm of alkalinity. While this product is completely soluble at all normal water temperatures, optimum soil release will be obtained in hot (140° F. to 160° F.) temperatures. Depending on soil and water conditions, a separated break cycle should be from 4 to 8 minutes in length. Do Not Use on Natural Silk or Wool. Since this product is 500% more concentrated than normal product, compare our price to the cost of 5 gallons of normal break.

PRECAUTION: AL USARIO: Si usted no lee Ingles, no use este producto, hasta que la etiqueta le haya sido explicada ampliamente.

TO THE USER: If you cannot read English, do not use this product until this label has been fully explained to you.
